REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1952, any article of the following named classes of published works deposited for copyright between January 1, 1948, and January 1, 1949, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific
or technical character.

Photographs.

Prints and pictorial illustrations excluding
prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

PREFACE

THIS part of the *Catalog of Copyright Entries* contains lists of the domestic and foreign works registered in the Copyright Office in Classes G, H, I, J, and K from January 1, 1951, through June 30, 1951. Included also are selected books in the fields of art and photography, and greeting cards registered in all classes. Renewal registrations in these classes made in this period are listed in the fifth section of this catalog.

Arrangement.—The current works included in this issue are listed in separate sections, each of which consists of an alphabetical arrangement of complete entries under the names chosen as main headings, and of brief entries in the form of cross-references from other names associated with the works, from variant forms of names and from distinctive titles of works registered as works of art, reproductions of works of art, and prints and pictorial illustrations.

The first section consists of *Works of Art, Reproductions of Works of Art, and Prints and Pictorial Illustrations* (i. e., registrations in Classes G, H, and K). It includes published and unpublished original paintings, drawings, designs for works of art, three-dimensional works of art, published reproductions of works of art in, usually, a different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters and other commercial and artistic purposes. The main heading for each entry in this section is name of the author (artist, or employer in case of a work made for hire); brief entries in the form of cross-references are

included for copyright claimants, joint authors authors of reproductions, etc.

In the second section are listed *Scientific and Technical Drawings* (i. e., registrations in Class I). It comprises published and unpublished charts, architectural and engineering plans and drawings, mechanical drawings, and also anatomical models and other plastic works. The main entries in this section are listed under author (artist, draftsman, etc., or employer in case of a work made for hire). Cross-references are included for claimants, joint author, etc.

Photographic Works are listed in the third section (i. e., registrations in Class J). It consists of published and unpublished photographic prints, filmstrips, slide films, stereoscopic and other transparencies and slides. Reproductions of photographs registered in Classes G, H, and K appear in the first section of this catalog. The main heading for each entry in this section is the copyright claimant. For works other than filmstrips, cross-references are included for joint claimants and for photographers if they are not the claimants, and, for filmstrips, from joint claimants, producing companies, sponsors, authors, and distinctive series titles.

The fourth section contains a list of *Greeting Cards*, the majority of which are registered under the symbols AA and K. Entries in this section are listed under the name of the copyright claimant. Cross-references are included for joint claimants and for authors (artists or authors of words).

The fifth section, *Renewals*, consists of an alphabetical list of works of art, scientific and technical

drawings, photographic works, and prints and pictorial illustrations for which renewal copyrights were registered during the period covered by the catalog. Brief entries in the form of cross-references are included for renewal claimants, joint authors, and titles.

In the sixth section *Selected Books in Art and Photography* are listed. These works are registered in Class A and appear also in Part 1A of the *Catalog*. They are arranged alphabetically under author and are books which consist largely or primarily of reproductions, books which list or describe photographs or works of art (including those devoted to the works of individual artists and photographers) and catalogs of exhibitions.

Bibliographic Data.—Under the heading (name of author or copyright claimant) each main entry for current works includes, as applicable: 1) title; 2) other essential names associated with the work; 3) description of the pictorial content of the item; 4) publisher and place of publication when the publisher and claimant are different (if the address is given in the statement of copyright facts, the claimant and the publisher are the same); 5) a brief statement describing the physical nature of the material; and 6) series. For renewal entries, the main heading is the name of the author (artist, or employer in case of a work made for hire) with the exception of those for photographic works, which is the name of the renewal claimant. The heading is followed by the title of the work.

Copyright Data.—For current works, the portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. The symbol is followed by: 1) a brief description of the new matter on which copyright is claimed when such statement is made in the copyright application; 2) name of copyright claimant if it differs from the name in the heading (when the copyright symbol follows the name of the author in the heading, it indicates that the author and copyright claimant are the same); 3) for published works, date of publication as given in the application followed by an "in notice" statement if the copyright notice differs from the year date in the application; for unpublished works, the date on which the last of all of the items required to complete registration (i. e., each of the following: copy, application and fee) was received in the Copyright Office; 4) the copyright registration number.

For renewals, the statement gives: 1) the original copyright date, 2) registration number, 3) the renewal registration number, 4) the date of the receipt of the renewal application, 5) the name of the renewal claimant, and 6) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim; e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author. Any information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, except in the case of renewal copyrights, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of

Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For

the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register or Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

ABBREVIATIONS

The following list includes abbreviations and symbols used in this catalog with specific copyright and bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author	p.	—page, pages
a.k.a.	—also known as	(PCB)	—proprietor of work copyrighted by a corporate body otherwise than as assignee or licensee of the author
©	—copyright symbol	pseud.	—pseudonym
(C)	—child or children of the deceased author	pub.	—published, publishing
ca.	—circa	(PWH)	—proprietor of copyright in a work made for hire
col.	—colored	rev.	—revised, revised by, revision

PHOTOGRAPHIC WORKS

An alphabetical list, under copyright claimant, of published and unpublished photographic prints, filmstrips, slide films, stereoscopic and other transparencies, and slides registered during the period covered by this catalog. Cross-references from the names of joint claimants and photographers, if different from the claimants, are interfiled in the main entries. The physical nature of each item is described. Reproductions of photographs registered in classes A, H, and K will be found in the first section of this catalog.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1953, any article of the following named classes of published works deposited for copyright between January 1, 1949, and January 1, 1950, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Registrar of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

PREFACE

THIS part of the *Catalog of Copyright Entries* contains lists of the domestic and foreign works registered in the Copyright Office in Classes G, H, I, J, and K from July 1, 1951, through December 31, 1951. Included also are selected books in the fields of art and photography, and greeting cards registered in all classes. Renewal registrations in these classes made in this period are listed in the fifth section of this catalog.

Arrangement.—The current works included in this issue are listed in separate sections, each of which consists of an alphabetical arrangement of complete entries under the names chosen as main headings, and of brief entries in the form of cross-references from other names associated with the works, from variant forms of names and from distinctive titles of works registered as works of art, reproductions of works of art, and prints and pictorial illustrations.

The first section consists of *Works of Art, Reproductions of Works of Art, and Prints and Pictorial Illustrations* (i. e., registrations in Classes G, H, and K). It includes published and unpublished original paintings, drawings, designs for works of art, three-dimensional works of art, published reproductions of works of art in, usually, a different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters and other commercial and artistic purposes. The main heading for each entry in this section is name of the author (artist, or employer in case of a work made for hire); brief entries in the form of cross-references are

included for copyright claimants, joint authors, authors of reproductions, etc.

In the second section are listed *Scientific and Technical Drawings* (i. e., registrations in Class I). It comprises published and unpublished charts, architectural and engineering plans and drawings, mechanical drawings, and also anatomical models and other plastic works. The main entries in this section are listed under author (artist, draftsman, etc., or employer in case of a work made for hire). Cross-references are included for claimants, joint author, etc.

Photographic Works are listed in the third section (i. e., registrations in Class J). It consists of published and unpublished photographic prints, filmstrips, slide films, stereoscopic and other transparencies and slides. Reproductions of photographs registered in Classes G, H, and K appear in the first section of this catalog. The main heading for each entry in this section is the copyright claimant. For works other than filmstrips, cross-references are included for joint claimants and for photographers if they are not the claimants, and, for filmstrips, from joint claimants, producing companies, sponsors, authors, and distinctive series titles.

The fourth section contains a list of *Greeting Cards*, the majority of which are registered under the symbols AA and K. Entries in this section are listed under the name of the copyright claimant. Cross-references are included for joint claimants and for authors (artists or authors of words).

The fifth section, *Renewals*, consists of an alphabetical list of works of art, scientific and technical

drawings, photographic works, and prints and pictorial illustrations for which renewal copyrights were registered during the period covered by the catalog. Brief entries in the form of cross-references are included for renewal claimants, joint authors, and titles.

In the sixth section *Selected Books in Art and Photography* are listed. These works are registered in Class A and appear also in Part 1A of the *Catalog*. They are arranged alphabetically under author and are books which consist largely or primarily of reproductions, books which list or describe photographs or works of art (including those devoted to the works of individual artists and photographers) and catalogs of exhibitions.

Bibliographic Data.—Under the heading (name of author or copyright claimant) each main entry for current works includes, as applicable, 1) title; 2) other essential names associated with the work; 3) description of the pictorial content of the item; 4) publisher and place of publication when the publisher and claimant are different (if the address is given in the statement of copyright facts, the claimant and the publisher are the same); 5) a brief statement describing the physical nature of the material; and 6) series. For renewal entries, the main heading is the name of the author (artist, or employer in case of a work made for hire) with the exception of those for photographic works, which is the name of the renewal claimant. The heading is followed by the title of the work.

Copyright Data.—For current works, the portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. The symbol is followed by 1) a brief description of the new matter on which copyright is claimed when such statement is made in the copyright application; 2) name of copyright claimant if it differs from the name in the heading (when the copyright symbol follows the name of the author in the heading, it indicates that the author and copyright claimant are the same); 3) for published works, date of publication as given in the application followed by an "in notice" statement if the copyright notice differs from the year date in the application; for unpublished works, the date on which the last of all of the items required to complete registration (i. e., each of the following: copy, application and fee) was received in the Copyright Office; 4) the copyright registration number.

For renewals, the statement gives 1) the original copyright date, 2) registration number, 3) the renewal registration number, 4) the date of the receipt of the renewal application, 5) the name of the renewal claimant, and 6) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim, e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author. Any information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, except in the case of renewal copyrights, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of

Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For

the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register or Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

ABBREVIATIONS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author	p.	—page, pages
a.k.a.	—also known as	(PCB)	—proprietor of work copyrighted by a corporate body otherwise than as assignee or licensee of the author
©	—copyright symbol	(PCW)	—proprietor of the composite work
